

Dear Students and Parents,

In years we have observed that senior class students have a lot of queries and confusions pertaining to their stream and career. Ambiguity related to the best stream, the best college, the best course, the admission process etc always hovers in student's minds. With so many options and emerging trends in every field, it is difficult for the child to get the best of everything. An optimum career path is required at this time.

The Millennium School is providing a platform where we will make students aware of different courses and career options for which planning can be started 'NOW', based on individuals liking, interest and aptitude.

We are organizing a session with **Expert Career Counsellors** from WonderSkool Organization (A renowned career counseling organization) on **31<sup>st</sup> Aug 2024 i.e Saturday** in the **School Auditorium from 9:00 a.m. to 10:00 a.m.**

WonderSkool team will address the following topics:

- Selecting an optimum stream / career
- Do we know other options other than Engineering in Non-Medical?
- After Medical, if not MBBS then what?
- Is CA really a top paying career from commerce stream?
- Are there institutes in India which provide Higher Education free of cost?
- Do Skill based careers also pay well?
- Career options for not so academically genius students.
- Myths related to unconventional careers like Animation, Hotel Management etc.
- Education Abroad and its nuances
- Continuous Profile Building
- International courses and colleges

Please note that attendance is mandatory for parents of classes VIII to XII to attend the session.

**Note: School is working for classes DR To XII till 12:30 pm on 31<sup>st</sup> Aug 2024 i.e Saturday.**

Thanks & Regards

Ms. Neha Sehgal  
Principal  
The Millennium School, Bathinda
